- Photoshop
- Figma
- HTML
- CSS

## LANGUAGES

- English
- Hindi
- Gujarati

I hereby solemnly declare that the information provided in this document is true, accurate, and complete to the best of my knowledge and belief.

## PROFILE

I am eager to apply my skills and knowledge in UI/UX design to a real-world setting and contribute to the success of a dynamic organization. With a strong academic background and hands-on experience in user interface design, user experience research, and prototyping, I am confident in my ability to quickly learn and adapt to new design challenges. I am passionate about creating intuitive, user-centered designs that enhance user satisfaction and contribute to the overall success of a product.

## PROJECT

### Photoshop

#### Burger Web-Page Design

- The promotional webpage for the burger restaurant features bold offers like "Buy 1 Get 1 FREE" and discounts for first-time orders. It showcases high-quality images of popular menu items with clear "Order Now" calls to action.
- The responsive design ensures a seamless experience across devices, while warm colors and readable typography enhance user engagement, making it easy for customers to browse and place orders.

### CMYK Printing PPT

- I created a professional presentation in Figma for CMYK printing on materials like Sari, Dress, Catalogs, and Stickers. Using the CMYK color model, I ensured accurate color reproduction for print, focusing on layout, typography, and visual hierarchy. The final PPT was optimized for both digital and print, meeting high-quality standards for production.

## CERTIFICATE

- Computer Training

## EDUCATION

**Bachelor of Information Technology [ B.Tech IT]**  
Atmiya University [Rajkot]

2021- 2025
